

ALL CHALLENGES OVERCOME

— WITH A HONDA PIONEER

Small but mighty, with a slim profile allowing you and a passenger to go places other UTVs can't.

NEW 4WD

PIONEER 520

THE COMPACT UTV

Our NEW Pioneer 520 is powerful, versatile and durable. Strong enough to tackle the toughest terrains, and compact enough to reach the tightest of locations.

With its powerful 518cc engine specially tuned for low-rpm torque, and its efficient five-speed automatic transmission – The Pioneer 520 delivers plenty of pulling power and traction. Its useful, tilting cargo bed with assist strut, allows you to carry and dump up to 204kg with ease. Its fully independent suspension provides a smooth and comfortable ride, even over rough terrain. But it's overall size is what makes it so versatile, at just 127cm wide it offers excellent manoeuvrability, allowing you and a passenger to reach places other UTVs can't – and weighing just 483Kg, it happens to be one of the lightest petrol UTVs on the market too.

Key specification features

- **Fuel-injected 518cc OHV single-cylinder engine**
Ensures effortless all-weather starts and high-altitude operation
- **204kg cargo bed capacity**
With a tailgate that opens flat for easy loading, carrying and dumping
- **Impressive 454kg towing capacity**
Powerful despite it's compact size
- **Five-speed auto transmissions**
Switch with ease between manual paddle shift gears or auto transmission
- **Side by side seating**
A comfortable bench-style seat carries the rider and a passenger
- **Front opening doors** allow for easy access for both rider and passenger

Pioneer 520

Traxlok® allows you to quickly switch between the 'go-anywhere' traction of 4wd and the increased manoeuvrability and lighter steering of 2wd.

Independent Rear Suspension (IRS) for improved comfort, traction and load handling capability.

Accessories available from July 2021 see page 18

From windscreens to roofs, wing mirrors to wind deflectors, make your Pioneer 520 even more versatile with our range of Honda accessories.

CE

CE certification for European utility ATVs All Honda utility ATVs destined for European markets are CE certified to specific European legislative requirements and to the needs of our customers. The Honda CE mark is clearly shown printed on the Model Year label, affixed to the front vertical frame tube. **Only ATVs with frame numbers with CE marking integral to the Model Year label**, are covered in the UK under the Honda Manufacturer's 2 Year Warranty. Separate CE stickers anywhere else on the frame tubes, other than printed integral to the Model Year label are unlikely to be genuine, thus should be considered non-CE and a cause for concern. If you have any doubt please have the frame number checked against the Honda UK database to check its origin and compliance to European Legislation. **Only a Honda Authorised Dealer can verify the 2 year CE manufacturer's Warranty.**
